
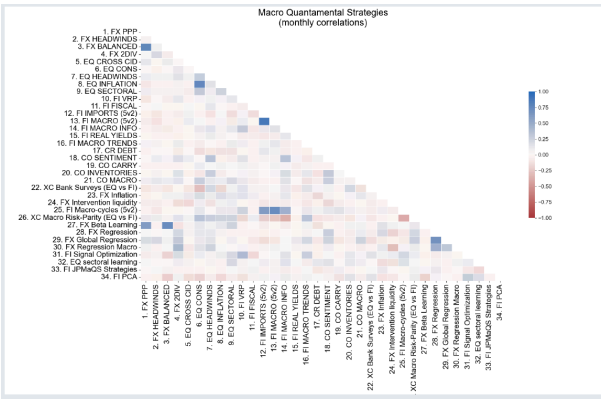

Figure 3.4: Monthly returns correlation for the main macro-quantamental strategies (2000-2024 (Nov)

The Macrosynergy academy lists 34 *trading ideas* [43] (as of December 2024) across all asset classes. Here is the list of all existing posts (most of them are accompanied by relevant downloadable Jupyter notebooks)

Category	Title and links
Cross asset class	*Equity versus fixed income: the predictive power of bank surveys* *Macroeconomic cycles and asset class returns* *Excess inflation and asset class returns* *Intervention liquidity* *Macro factors of the risk-parity trade*
Equity factors	*Cross-country equity futures strategies* *Statistical learning for sectoral equity allocation* *Macro factors and sectoral equity allocation* *Macro trends and equity allocation: a brief introduction* *Equity trend following and macro headwinds* *Inflation and equity markets* *Equity market timing: the value of consumption data* *Job growth as trading signal*
Fixed income factors	*Macro information changes as systematic trading signals* *Macro demand-based rates strategies* *Merchandise import as predictor of duration returns* *Fiscal policy criteria for fixed-income allocation* *The predictive power of real government bond yields* *Trend following: combining market and macro information* *The power of macro trends in rates markets* *Inflation expectations and interest rate swap returns* *Duration volatility risk premia*
Foreign exchange	*Advanced FX carry strategies with valuation adjustment* *FX trading signals with regression-based learning* *FX trend following and macro headwinds* *Pure macro FX strategies: the benefits of double diversification* *Modified and balanced FX carry* *How to use FX carry in trading strategies* *Economic growth and FX forward returns*
Commodity factors	*Inventory scores and metal futures returns* *Business sentiment and commodity future returns* *Commodity carry as a trading signal – part 1* *Commodity carry as a trading signal – part 2* *Predicting base metal futures returns with economic data*
Credit Factors	*Sovereign debt sustainability and CDS returns*

Group	Category	Label	Description	Geogr.
Business surveys				
	CBCSCORE_SA_D3M3ML3_WG_ZN	Construction confidence, q/q	Construction business confidence score, seas. adjusted, change q/q	weighted
	CBCSCORE_SA_D3M3ML3_ZN	Construction confidence, q/q	Construction business confidence score, seas. adjusted, change q/q	local
	CBCSCORE_SA_WG_ZN	Construction confidence	Construction business confidence score, seas. adjusted	weighted
	CBCSCORE_SA_ZN	Construction confidence	Construction business confidence score, seas. adjusted	local
	MBCSCORE_SA_D3M3ML3_WG_ZN	Manufacturing confidence, q/q	Manufacturing business confidence score, seas. adj., change q/q	weighted
	MBCSCORE_SA_D3M3ML3_ZN	Manufacturing confidence, q/q	Manufacturing business confidence score, seas. adj., change q/q	local
	MBCSCORE_SA_WG_ZN	Manufacturing confidence	Manufacturing business confidence score, seasonally adjusted	weighted
	MBCSCORE_SA_ZN	Manufacturing confidence	Manufacturing business confidence score, seasonally adjusted	local
	SBCSCORE_SA_D3M3ML3_WG_ZN	Service confidence, q/q	Services business confidence score, seas. adjusted, change q/q	weighted
	SBCSCORE_SA_D3M3ML3_ZN	Service confidence, q/q	Services business confidence score, seas. adjusted, change q/q	local
	SBCSCORE_SA_WG_ZN	Service confidence	Services business confidence score, seasonally adjusted	weighted
	SBCSCORE_SA_ZN	Service confidence	Services business confidence score, seasonally adjusted	local
Commodity inventories				
	BASEXINVCSCORE_SA_ZN	Excess crude inventory score	Crude oil excess inventory z-score, seasonally adjusted	global
	BML XINVCSCORE_SA_ZN	Excess metal inventory score	Base metal excess inventory z-score, seasonally adjusted	global
	REFIXINVCSCORE_SA_ZN	Excess refined oil inventory score	Refined oil product excess inventory z-score, seas. adjusted	global
Debt				
	CORPINTNETGDP_SA_D1Q1QL4_WG_ZN	Corporate debt servicing, %oya	Corporate net debt servicing-to-GDP ratio, seasonally-adjusted, %oya	weighted
	CORPINTNETGDP_SA_D1Q1QL4_ZN	Corporate debt servicing, %oya	Corporate net debt servicing-to-GDP ratio, seasonally-adjusted, %oya	local
	HHINTNETGDP_SA_D1M1ML12_WG_ZN	Households debt servicing, %oya	Households net debt servicing-to-GDP ratio, seasonally-adjusted, %oya	weighted
	HHINTNETGDP_SA_D1M1ML12_ZN	Households debt servicing, %oya	Households net debt servicing-to-GDP ratio, seasonally-adjusted, %oya	local
	XGGDGDPRATIOX10_NSA_ZN	Excess projected gov. debt	Government debt-to-GDP ratio proj. in 10 years, in excess of 100%	local
Exports				
	XEXPORTS_SA_P1M1ML12_3MMA_ZN	Excess export growth	Exports growth, %oya, 3mma, in excess of 5-year median GDP growth	local
Inflation - broad				
	XCPIC_SA_P1M1ML12_ZN	Excess core CPI, %oya	Core CPI, %oya, in excess of effective inflation target	local
	XCPIH_SA_P1M1ML12_ZN	Excess headline CPI, %oya	Headline CPI, %oya, in excess of effective inflation target	local
	XPPIH_NSA_P1M1ML12_ZN	Excess PPI, %oya	Producer price inflation, %oya, in excess of eff. inflation target	local
Inflation - specific				
	XCPIE_SA_P1M1ML12_WG_ZN	Excess energy CPI, %oya	Energy CPI, %oya, in excess of effective inflation target	weighted
	XCPIE_SA_P1M1ML12_ZN	Excess energy CPI, %oya	Energy CPI, %oya, in excess of effective inflation target	local
	XCPIF_SA_P1M1ML12_WG_ZN	Excess food CPI, %oya	Food CPI, %oya, in excess of effective inflation target	weighted
	XCPIF_SA_P1M1ML12_ZN	Excess food CPI, %oya	Food CPI, %oya, in excess of effective inflation target	local
Labour market				
	UNEMPLRATE_NSA_3MMA_D1M1ML12_WG_ZN	Unemployment rate, diff oya	Unemployment rate, change oya	weighted
	UNEMPLRATE_NSA_3MMA_D1M1ML12_ZN	Unemployment rate, diff oya	Unemployment rate, change oya	local
	UNEMPLRATE_SA_3MMAv5YMA_WG_ZN	Unemployment rate, diff vs 5y ma	Unemployment rate, difference vs 5-year moving average	weighted
	UNEMPLRATE_SA_3MMAv5YMA_ZN	Unemployment rate, diff vs 5y ma	Unemployment rate, difference vs 5-year moving average	local
	XEMPL_NSA_P1M1ML12_3MMA_WG_ZN	Excess employment growth	Employment growth, %oya, 3mma, in excess of population growth	weighted
	XEMPL_NSA_P1M1ML12_3MMA_ZN	Excess employment growth	Employment growth, %oya, 3mma, in excess of population growth	local
	XWAGES_NSA_P1M1ML12_ZN	Excess real wage growth	Real wage growth, %oya, in excess of medium-term productivity growth	local
Inflation - specific				
	XCPIE_SA_P1M1ML12_WG_ZN	Excess energy CPI, %oya	Energy CPI, %oya, in excess of effective inflation target	weighted
	XCPIE_SA_P1M1ML12_ZN	Excess energy CPI, %oya	Energy CPI, %oya, in excess of effective inflation target	local
	XCPIF_SA_P1M1ML12_WG_ZN	Excess food CPI, %oya	Food CPI, %oya, in excess of effective inflation target	weighted
	XCPIF_SA_P1M1ML12_ZN	Excess food CPI, %oya	Food CPI, %oya, in excess of effective inflation target	local
Market metrics				
	BML COCRX_5AVT10_21DMA_ZN	Base metals carry	Nominal carry for base metals basket, seas and vol-adjusted, 21 days MA	global
	COCR_VT10WTL_21DMA_ZN	Refined vs crude oil returns	Refined oil products vs crude oil vol-targeted return diff, 21 days MA	global
	RIR_NSA_ZN	Real 1-month rate	Real 1-month interest rate	local
	RSLOPEMEDLE_NSA_ZN	Real 5y-2y yield	Real IRS yield differentials, 5-years versus 2-years	local
	RYLDIRS02Y_NSA_ZN	Real 2-year yield	Real 2-year IRS yield	local
	RYLDIRS05Y_NSA_ZN	Real 5-year yield	Real 5-year IRS yield	local

Output growth				
	XCSTR_SA_P1M1ML12_3MMA_WG_ZN	Excess construction growth	Construction output, %oya, 3mma, in excess of 5-y median GDP growth	weighted
	XCSTR_SA_P1M1ML12_3MMA_ZN	Excess construction growth	Construction output, %oya, 3mma, in excess of 5-y median GDP growth	local
	XIP_SA_P1M1ML12_3MMA_WG_ZN	Excess industry growth	Industrial output, %oya, 3mma, in excess of 5-y median GDP growth	weighted
	XIP_SA_P1M1ML12_3MMA_ZN	Excess industry growth	Industrial output, %oya, 3mma, in excess of 5-y median GDP growth	local
	XRGDPTECH_SA_P1M1ML12_3MMA_WG_ZN	Excess GDP growth	Real GDP, %oya, 3mma, using HF data, in excess of 5-y med. GDP growth	weighted
	XRGDPTECH_SA_P1M1ML12_3MMA_ZN	Excess GDP growth	Real GDP, %oya, 3mma, using HF data, in excess of 5-y med. GDP growth	local

Group	Category	Label	Description	Geogr.
Private consumption				
	CCSCORE_SA_D3M3ML3_WG_ZN	Consumer confidence, q/q	Consumer confidence score, seasonally adjusted, change q/q	weighted
	CCSCORE_SA_D3M3ML3_ZN	Consumer confidence, q/q	Consumer confidence score, seasonally adjusted, change q/q	local
	CCSCORE_SA_WG_ZN	Consumer confidence	Consumer confidence score, seasonally adjusted	weighted
	CCSCORE_SA_ZN	Consumer confidence	Consumer confidence score, seasonally adjusted	local
	XNRSALES_SA_P1M1ML12_3MMA_WG_ZN	Excess retail sales growth	Nominal retail sales, %oya, 3mma, in excess of 5-y median GDP growth	weighted
	XNRSALES_SA_P1M1ML12_3MMA_ZN	Excess retail sales growth	Nominal retail sales, %oya, 3mma, in excess of 5-y median GDP growth	local
	XRPCONS_SA_P1M1ML12_3MMA_WG_ZN	Excess consumption growth	Real private consumption, %oya, 3mma, in excess of 5-y median GDP growth	weighted
	XRPCONS_SA_P1M1ML12_3MMA_ZN	Excess real consum growth	Real private consumption, %oya, 3mma, in excess of 5-y median GDP growth	local
	XRRSALES_SA_P1M1ML12_3MMA_WG_ZN	Excess real retail growth	Real retail sales, %oya, 3mma, in excess of 5-y median GDP growth	weighted
	XRRSALES_SA_P1M1ML12_3MMA_ZN	Excess real retail growth	Real retail sales, %oya, 3mma, in excess of 5-y median GDP growth	local
Private credit				
	INTLIQGDP_NSA_D1M1ML1_ZN	Intervention liquidity, diff m/m	Intervention liquidity to GDP ratio, change over the last month	local
	INTLIQGDP_NSA_D1M1ML6_ZN	Intervention liquidity, diff 6m	Intervention liquidity to GDP ratio, change overlast 6 months	local
	XPCREDITBN_SJA_P1M1ML12_WG_ZN	Excess credit growth	Private credit, %oya, 3mma, in excess of 5-y median GDP growth	weighted
	XPCREDITBN_SJA_P1M1ML12_ZN	Excess credit growth	Private credit, %oya, 3mma, in excess of 5-y median GDP growth	local
Real appreciation				
	CMPI_NSA_P1M12ML1_ZN	Import prices, %oya	Commodity-based import price index, %oya	local
	CTOT_NSA_P1M12ML1_ZN	Terms-of-trade, %oya	Commodity-based terms-of-trade, %oya	local
	CXPI_NSA_P1M12ML1_ZN	Export prices, %oya	Commodity-based export price index, %oya	local
	REERQADJ_NSA_P1M12ML1_ZN	Open-adj REER, %oya	Openness-adjusted real effective exchange rate, %oya	local

JPMAQ List of ideas

Note: The appendix in the new pdf has a list of all the links below. It can be used for directly accessing the note and corresponding data series.

Cyclical Strength Score - Multi-asset Outcomes

Macroeconomic cycles and asset class returns | Macrosynergy

FX, Equities, IRS (But can be used for Duration trade as well)

Lower Conviction:
Intervention liquidity | Macrosynergy

Medium Conviction (Equity vs Bonds)
Equity versus fixed income: the predictive power of bank surveys | Macrosynergy

Macro Trends (For Equities and Bonds)
Trend following: combining market and macro information | Macrosynergy
(Essentially enhance TF or use TF to improve SR of Macro momentum)

Equity trend following and macro headwinds | Macrosynergy
Equity Macro enhanced TF - improvement in SR observed.
Note: Need to assess the "raw" predictive ability of the macro scores by themselves

FX TF vs Macro headwind
FX trend following and macro headwinds | Macrosynergy

FX Carry Adjustments
Modified and balanced FX carry | Macrosynergy
Advanced FX carry strategies with valuation adjustment | Macrosynergy
(Good ways to create more "robust" carry - does it make sense to build standalone Macro indicators for FX or to use it to enhance Carry?)

Commodity Carry
Uses US Inflation expectations to adjust Carry Signal
Commodity carry as a trading signal – part 1 | Macrosynergy
Commodity carry as a trading signal – part 2 | Macrosynergy
Note: For our setup US and China Infl expectation can be used to adjust the Carry Signal. Check note for their methodology.

Equity Sector Rotation
Macro trends and equity allocation: a brief introduction | Macrosynergy
Macro factors and sectoral equity allocation | Macrosynergy
We can use these indicators for rotating Country allocation as well (to be tested)
The indicators broadly help with sectors - so break Sectors into defensive vs cyclical and build a score for a country based on the indicator and use it to time the country allocation

Cross-country equity futures strategies | Macrosynergy
Pure Equity Index futures idea - HIGHER Conviction
The idea is to take a list of indicators and build directional and cross-sectional indicators panel for trading.

Macro information changes as systematic trading signals | Macrosynergy
IRS Strategy - good and robust - mixes many indicators
Can Share with SY or actually build it myself towards end of the year
Strong candidate - higher Conviction

FX ML Approach
Optimizing macro trading signals – A practical introduction | Macrosynergy
FX trading signals with regression-based learning | Macrosynergy
How to adjust regression-based trading signals for reliability | Macrosynergy

Equity Sector Rotation ML
How random forests can improve macro trading signals | Macrosynergy

US Treasury Market (Bond futures)
U.S. Treasuries and macro-enhanced trend following | Macrosynergy
Higher Conviction - can be done fast. Can use other available instruments as out-of-sample (like Bunds, Aussie bonds, Korean bonds)
Deconstructing the Yield Curve - FEDERAL RESERVE BANK of NEW YORK
Treasury yield curve and macro trends | Macrosynergy

Inflation Signal - Mult-asset Testing
Excess inflation and asset class returns | Macrosynergy
Higher conviction idea - works across Asset classes

IRS
Macro demand-based rates strategies | Macrosynergy
Merchandise import as predictor of duration returns | Macrosynergy

Main page with Links to multiple articles

Macro Trends | Macrosynergy

FX
Economic growth and FX forward returns | Macrosynergy
Pure macro FX strategies: the benefits of double diversification | Macrosynergy
How “beta learning” improves macro trading strategies | Macrosynergy

FX trading strategies based on output gaps | Macrosynergy
(Note: This can be built using CE Forecasts and simple approach)
Terms of trade as FX trading signal | Macrosynergy

CDS term premia and exchange rates | Macrosynergy
CDS Term structure for FX -- interesting idea!

Equity Index
Equity market timing: the value of consumption data | Macrosynergy
Equity market timing: the value of consumption data | Macrosynergy
Inflation and equity markets | Macrosynergy

Commodities
Predicting base metal futures returns with economic data | Macrosynergy
Business sentiment and commodity future returns | Macrosynergy
https://macrosynergy.com/research/forecasting-energy-markets-with-macro-data/
(Paper based idea)
https://macrosynergy.com/research/china-housing-and-global-base-metal-prices/
(Paper based idea)

CDS
Sovereign debt sustainability and CDS returns | Macrosynergy
(Can this be used for Equity and Bond, or perhaps VIX?)

Equity vs Bond Rotation
https://macrosynergy.com/research/equity-versus-fixed-income-the-predictive-power-of-ban

k-surveys/

Usable Idea:
https://macrosynergy.com/research/how-to-use-financial-conditions-indices/
https://macrosynergy.com/research/monetary-policy-stance-in-one-indicator/
https://macrosynergy.com/research/building-international-financial-conditions-indices/

FX
https://macrosynergy.com/research/using-yield-curve-information-for-fx-trading/
Look at convexity/curvature of Yield curve to Trade FX instead of simple slope/term structure
https://macrosynergy.com/research/cds-term-premia-and-exchange-rates/
CDS Changes and CDS Term premia (slope, curve, etc) -- Good factors for Equity Index Futures trading

Lead lag Idea
https://macrosynergy.com/research/measuring-non-conventional-monetary-policy-surprises/

Event based Idea (using Policy "shock" indicators)
https://macrosynergy.com/research/fed-policy-shocks-and-foreign-currency-risk-premia/
https://macrosynergy.com/research/the-global-effects-of-a-u-s-term-premium-shock/

Equities
https://macrosynergy.com/research/inflation-differentials-and-equity-returns/
Note: Use Socgen Inflation newsflow index for this
https://macrosynergy.com/research/policy-rates-and-equity-returns-the-slope-factor/
(The above can be built from Market Data on Fed fund futures)

Risk measures
https://macrosynergy.com/research/the-1x1-of-risk-perception-measures/
https://macrosynergy.com/research/building-a-real-time-market-distress-index/

FX
https://macrosynergy.com/research/volatility-risk-premia-and-fx-returns/
https://macrosynergy.com/research/advanced-fx-carry-strategies-with-valuation-adjustment/
https://macrosynergy.com/research/modified-and-balanced-fx-carry/
https://macrosynergy.com/research/pure-macro-fx-strategies-the-benefits-of-double-diversification/

Bonds
https://macrosynergy.com/research/the-predictive-power-of-real-government-bond-yields/

IRS
https://macrosynergy.com/research/duration-volatility-risk-premia/

Equity
https://macrosynergy.com/research/terms-of-trade-as-trading-signals/
TOT as Equity Directional/Relative Value Signal
Can test Citi data as well for this. Seems interesting.

https://macrosynergy.com/research/a-macro-quantamental-scorecard-for-global-equity-allocation/
Macro Scorecard - seems to be the core idea behind their QIS

Macro Events
https://macrosynergy.com/research/when-economic-data-surprises-matter-most/
